

All Things Cherry Proudly Presents:

SQ4: The Anal Sex and Alien Correlation

Formal Abstract:

Anal sex. The black cherry. The object of alien probes worldwide. Herein lies the question of anal sex, alien abduction, and the desire to get probed.

Deflowered by ATC

All Things Cherry

SQ Series Summary Results Survey 4

Webpage: <http://www.allthingscherry.com/>

Disclaimer:

This brief summary does not intend to be statistical accurate in any way. It is a satirical summary of real responses gathered anonymous and randomly through internet input for entertainment purposes only. The only reason there is a disclaimer, is because there are too many stupid people alive that may take this as truth.

Question Definition

Is there a correlation between people that have anal sex with how they groom their genital hair and what cereal they eat? More importantly, how do people feel about an alien anal probe?

Methods

Internet polling, via website input, was conducted. The poll was left active for one month with input done through a webpage survey for anonymous input. Advertisement of the poll was done primary through Facebook groups and sharing.

The following questions were asked:

Please enter your sex:

Please enter your age:

What shape is your genital hair (unshaved, fully shaved, triangle, etc...):

What is your favorite cereal?

Do you believe in extraterrestrial aliens?

Have you ever met an extraterrestrial alien?

If you were abducted, would you hope it involved some sort of sex experiments?

Would you be disappointed if they didn't probe your ass?

What type of alien was it or do you want it to be?

- Tentacle
- Little Green Man
- Robot
- Insect like
- Reptilian
- Cat Like
- Other

Do you have anal sex with humans?

You are abducted with a group of friends while you're out camping. The aliens force you have to sex with different partners repeatedly. Would you go camping with these friends again?

Do you role play in the bedroom as aliens?

Why do you think aliens probe asses?

All Things Cherry Presents: THE ANAL SEX AND ALIEN CORRELATION

ANAL SEX BASED ON GENDER

57% of male respondents stated that they have anal sex with humans. Conversely, only 20% of female respondents stated the same.

PEOPLE WHO HAVE ANAL SEX

If you were abducted by aliens, would you hope it involved some sort of sexual experiments?
Would you be disappointed if they didn't probe your ass?

Males that would be disappointed if they weren't probed typically had fully shaved genitals.

They prefer Fruit Loops.

The most common preferred alien for probing was listed as "ROBOT".

Males that would not be disappointed if they weren't probed typically had fully shaved or trim genital hair.

They prefer Barley, Raisin Bran, and Golden Grahams.

The most common preferred alien for probing was listed as "OTHER" or "REPTILIAN".

Females that would be disappointed if they weren't probed typically had fully shaved genitals.

They prefer Shreddies cereal.

The most common preferred alien for probing was listed as "TENTACLE".

No male respondent stated they role played in the bedroom as aliens. Every female responded that they did indeed role play in the bedroom as aliens.

PEOPLE WHO DO NOT HAVE ANAL SEX

If you were abducted by aliens, would you hope it involved some sort of sexual experiments?
Would you be disappointed if they didn't probe your ass?

Males that would not be disappointed if they weren't probed typically had trimmed or shaped (thundercats symbol) genital hair.

They prefer Oatmeal, Coco Crisps, or Trix.

The most common preferred alien for probing was listed as "OTHER" or "LITTLE GREEN MAN".

Females that would be disappointed if they weren't probed typically had shaped (palm tree) genital hair.

They prefer Fruity Pebbles.

The most common preferred alien for probing was listed as "CAT LIKE".

Females that would not be disappointed if they weren't probed typically had triangle, landing strip, or shaved genitals.

They prefer Frosted Flakes or No cereal.

The most common preferred alien for probing was listed as "LITTLE GREEN MAN" or "CAT LIKE".

No male respondent stated they role played in the bedroom as aliens. 25% of female respondents stated they role in the bedroom as aliens and also have alien sex toys.

Conclusions

We got a higher than other national polls of respondents that state they do anal. Right on! We love you.

8% of responses did not believe in aliens.

17% of respondents stated they had indeed met an alien. Strangely enough, of the 17% that did have an encounter with an alien, the females responded that they wished the experience was sexual and would be disappointed if they weren't probed. Yet, they did not have anal sex with humans. The males that had met aliens, did not want an extraterrestrial sexual experience and definitely no probing with aliens or humans.

Generally speaking, the less genital hair, the more likely anal is done. Additionally, people that eat Fruit Loops and Shreddies are the kind of people that not only do anal with humans, but are likely to be disappointed if an alien doesn't probe them.

We found it quite interesting that we had female responses state they had alien sex toys and alien role play, but no male responses.

The item we're most confused by: given a list of Tentacle, Little Green Man, Robot, Insect like, Reptilian, Cat Like, and Other alien types, 33% of respondents picked "Other" yet not a single one offered what "Other" was in the comments. We did a little research prior to the poll and the list provided included pretty much included 90% of alien responses out there. The two, we left off on purpose to spark more comments, was "Pure Energy/Angelic" and "Norse". Because, we don't think our non-responsive entries were thinking of these, we'll just conclude that anyone who selected "Other" was thinking of Lindsey Lohan.

Why do Aliens Probe Asses?

Your responses:

They probably probe all the holes, that one is just included. Either that or they are trying to make a judgment on what percentage of the population enjoys anal.

Gland stimulus. Electrical shocks to make you shoot baby juice everywhere. They are collected DNA samples through electrical shock toys.

It's the only way gay rednecks get to engage in socially acceptable sodomy.

To investigate the purpose of orifices without dissection. Unfortunately, I bet they start with the ass, and then move to another one without cleaning it off. That may be why Ass to Mouth has become a thing. If Ass to Ear/Nose is also a thing, my case proves itself.

Sort of like taking a temperature, rectally. Hopefully that's why, anyways ;)

Convenient access to study our organs/insides.

Pure entertainment.

I think it was a prank one alien played on another that got way out of hand. "You should see what they do when you stick things up their butts! Their heads glow and they break out into orange polka dots!" Now all aliens have to try it.

Because we don't leave our shit on the ground like every other animal.

To humiliate us.

Comments

This is our favorite portion of every poll. We had some people that took this poll very seriously from the comments. For everyone's viewing pleasure, in no particular order, the comments:

This is a fallacy, there is no evidence supporting the fact that aliens probe asses. – *male*

Tentacle..Giggity! – *female*

If a girl wanted me to dress up like an alien for anal, I'm okay with that. – *male*

Hopefully, our first alien encounter is from sexually promiscuous ones that just want to be done by humans. I would feel very bad for those pioneers of humankind who discover which aliens have spines to keep you in until they are finished. – *male*

I love All Things Cherry! :D – *female* [We love you too! - ATC]

I think I still have my alien ass cherry. At least I have no memory of anal probing during any abduction. – *female*

This is weird. – *female*

Alien sex is mental and telepathic. Ass probing is scientific research. They are not related. – *male*

Story Time

50% of respondents stated that if they were camping with friends and were all abducted, forced to have sex among with each other, and then returned, they would camp with those friends again.

Nearly 10 years ago, one of our authors was watching a documentary of alien abductions and it centered a group of 8 that were camping and were group abducted. The people stated they were forced to have group sex with each other and then with aliens and then returned a day later.

While camping shortly thereafter with the founders of this group, this topic came up and the question as to why aliens probed people became a topic. One of the founders stated that perhaps the aliens were just really bored. The response to that was, “I’ve never looked at a cow, or any other species for that matter, and thought, ‘I’m really bored. Let’s stick something up its ass.’” It was concluded no one would go camping with that guy again. (We went camping one week later. No ass probing was done.)
